## Report of the Board of Directors and the CEO, Contd.:

---

### Share capital and Articles of Association, contd.:

At the Annual General Meeting on 27 March 2014, a proposal from the Board of Directors was approved authorizing the Company to acquire up to 10% of the Company's total share capital. The authorization has not been exercised.

Those who intend to candidate at the election of the Board of Directors of the Company must notify so in writing to the Board of Directors with at least five days notice before the beginning of the annual general meeting. The Company's Articles of Association can only be amended with the approval of 2/3 of votes cast in a lawfully called shareholders' meeting, provided that the intended amendment is thoroughly mentioned in the agenda to the meeting and what it consists of.

### Corporate governance

The Board of Directors of N1 hf. has established rules of procedure for the Board wherein it endeavours to comply with the "Guidelines on corporate governance" issued by the Iceland Chamber of Commerce, NASDAQ OMX Iceland and the Confederation of Icelandic Employers issued in March 2012. The guidelines are available on the website of the Iceland Chamber of Commerce [www.vi.is](http://www.vi.is). The Company complies with the guidelines in main respect but has though not deemed it necessary to appoint a nomination committee. Furthermore, the statement of corporate governance does neither include an analysis of environmental or social factors, nor does it include information on the Board's performance evaluation. Further information on the Board of Directors and corporate governance is included in the Chapter Corporate Governance as appendix to the Company's financial statements. 40% of the Company's Board Directors are women.

### Statement by the Board of Directors and the CEO

The Company's financial statements have been prepared in accordance with International Financial Reporting Standards as adopted by the European Union.

According to the best of our knowledge, in our opinion the financial statements give a true and fair view of the operating profit of the Company for the year 2014, its assets, liabilities and financial position as at 31 December 2014, and changes in cash and cash equivalents during the year 2014.

Furthermore, in our opinion the financial statements and the Report of the Board of Directors and the CEO include a true and fair view of the development and results of the Company's operations, its standing and describes the main risk factors and the uncertainty faced by the Company.

The Board of Directors and the CEO of N1 hf. have today discussed the Company's financial statements for the year 2014 and confirm them by means of their signatures. The Board of Directors and the CEO propose that the Annual General Meeting of the Company approve the financial statements of the Company.

# Independent Auditor's Report

---

To the Board of Directors and Shareholders of N1 hf.

We have audited the accompanying financial statements of N1 hf. for the year 2014, which comprise the income statement and statement of comprehensive income, balance sheet, statement of changes in equity, cash flow statement and a summary of significant accounting policies and other explanatory notes.

## Responsibility of the Board of Directors and the CEO for the financial statements

The Board of Directors and the CEO are responsible for the preparation and presentation of these financial statements in accordance with International Financial Reporting Standards as adopted by the European Union. The Board of Directors and the CEO are also responsible for the internal control which is necessary to enable the preparation and presentation of the financial statements, so that they are free from material misstatements, whether due to fraud or error.

## Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with relevant ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Opinion

In our opinion, the financial statements give a true and fair view of the Company's profit for the year 2014, its financial position as at 31 December 2014 and change in cash flows for the year 2014 in accordance with International Financial Reporting Standards as adopted by the European Union.

## Confirmation of the Report of the Board of Directors and the CEO

Pursuant to the requirement of Paragraph 2 Article 104 of the Financial Statements Act no. 3/2006, we confirm to the best of our knowledge that the accompanying Report of the Board of Directors and the CEO includes all the information required by the Financial Statements Act that is not disclosed elsewhere in the financial statements.

## 1. Reporting entity

N1 hf. („the Company”) is an Icelandic limited liability company. The Company's headquarters are located at Dalvegur 10-14, Kopavogur. The objective of the Company is sale of fuel and lubricants in fixed, liquid and gaseous form, wholesale and retail, purchase, sale and ownership of securities, purchase, sale, ownership and operation of real estates and movable property, together with lending activities related to the Company's operations and other related operations.

## 2. Basis of preparation

### a. Statement of compliance

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union.

The financial statements of N1 hf. were approved by the Board of Directors on 25 February 2015.

### b. Going concern

Management has evaluated the Company's going concern. It is the opinion of management that its operations is ensured and that it is able to meet its obligations in the foreseeable future. Therefore, the financial statements are presented on a going concern basis.

### c. Basis of measurement

The financial statements have been prepared on the historical cost basis, except for shares in other companies, derivatives and bonds, which are recognised at fair value.

### d. Presentation and functional currency

The financial statements are prepared and presented in Icelandic Krona (ISK), which is the Company's functional currency. All amounts have been rounded to the nearest thousand unless otherwise stated.

### e. Use of estimates and judgements

The preparation of the financial statements in conformity with IFRSs requires management to make judgements, estimates and assumptions, which affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Changes in accounting estimates are recognised in the period in which the estimate is changed and in those future periods which are affected by the changes.

Information about important judgements that have the most significant effect on the amounts recognised in the financial statements is disclosed in note 3.e.(iv) regarding classification of leases, note 22 on inventories and note 31 on write down of trade receivables.

## 3. Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

### a. Associates

Associates are entities where the Company has significant influence, but not control, over the financial and operating policies. Significant influence is presumed to exist when the Company holds between 20 and 50 percent of the voting rights. Associated companies are accounted for using the equity method and are recognised initially at cost. The Company's investment includes the goodwill arising from the acquisition, if any, less impairment, if any. The Company's financial statements include the Company's share of profit and equity movements of associates from the date that significant influence commences until the date that significant influence ceases. When the Company's share of losses exceeds its interest in an associate, the carrying amount of that interest is reduced to nil and the recognition of further losses is discontinued except to the extent that the Company has provided guarantees in respect of the associate or has financed it. Unrealised profit arising on transactions with associated companies is recognised as a reduction in their book value. Unrealised loss is recognised in the same way as unrealised profit, but only to the extent that there is no indication of impairment of these companies.

### 3. Significant accounting policies, contd.:

#### b. Foreign currencies

##### (i) Transactions in foreign currencies

Transactions in foreign currencies are translated to Icelandic Krona at the exchange rate at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rate at the reporting date. Exchange differences arising from transactions in foreign currencies are recognised in the income statement. At year end there were no open forward exchange contracts. The Company does not apply hedge accounting.

##### (ii) Foreign associates

The share of income of foreign associates is recognised at the average exchange rate of the year. The share of the equity is recognised at the exchange rate at the reporting date. Exchange differences arising from the translation to Icelandic Krona are recognised as a separate line item in the statement of comprehensive income. When a foreign associate is sold, partially or entirely, the related exchange difference is transferred to the income statement.

#### c. Financial instruments

##### (i) Financial assets and financial liabilities

The Company's financial assets and liabilities comprise cash and cash equivalents, shares in other companies, bonds, trade and other receivables, borrowings and trade and other short-term payables.

Financial instruments are initially recognised at fair value. They are recognised at the transaction date, which is the date the Company becomes a party to the contractual provisions of the instrument. For financial instruments not recognised at fair value through profit and loss all direct transaction costs are taken into account upon initial recognition. After initial recognition the Company's financial instruments are recognised as follows.

##### Financial assets at fair value through profit and loss

Shares in other companies and bonds are recognised at fair value through profit and loss. A financial instrument is classified as a financial instrument at fair value through profit and loss if it is held for trading or if it is designated as a financial instrument at fair value through profit and loss upon initial recognition. Financial instruments are designated at fair value through profit and loss if decisions regarding purchase and sale are based on their fair value. Financial assets at fair value through profit and loss are recognised at fair value in the balance sheet and fair value changes are recognised in the income statement. Direct transaction costs are recognised in the income statement when incurred. The Company's shares on other companies are not classified as held for trading but as financial assets designated as at fair value through profit and loss. Fair value changes of the shares are recognised under the item change in fair value of shares in the income statement and statement of comprehensive income but fair value changes of bonds are recognised as part of finance income.

##### Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are initially recognised at fair value plus all related transaction costs. After initial recognition loans and receivables are recognised at amortised cost using the effective interest method, less impairment when appropriate. Loans and receivables comprise trade and other receivables.

##### Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand bank deposits and short-term securities on maturity within 90 days from date of purchase and which uncertainty with respect to value is insignificant.

##### Financial liabilities

The Company's financial liabilities are recognised at amortised cost using the effective interest method. They comprise borrowings, trade and other short-term payables.

## Notes, contd.:

### 3. Significant accounting policies, contd.:

#### c. Financial instruments, contd.:

##### (ii) Share capital

Share capital is classified as equity. Direct costs due to issue of share capital is recognised as reduction from equity, net of income tax effects.

Upon purchase of treasury shares the acquisition price, including direct costs, is recognised as reduction from equity. When treasury shares are sold the sale is recognised as increase in equity.

#### d. Intangible assets

##### (i) Software

Capitalised software licenses are recognised at cost less accumulated depreciation. Software is amortised on a straight line basis over 7 years.

##### (ii) Trademarks

Cost of procuring trademarks is capitalised and amortised on a straight line basis over the estimated useful life, taking into account impairment if any, over maximum 20 years.

#### e. Property, plant and equipment

##### (i) Recognition and measurement

Property, plant and equipment is recognised at cost less accumulated depreciation and impairment.

When property, plant and equipment consists of parts which have different useful lives, the parts are separated and depreciated based on the useful life of each part.

The gain on sale of property, plant and equipment, which is the difference between their sale proceeds and carrying amount, is recognised in the income statement among other operating income and the loss on sale among other operating expenses.

##### (ii) Subsequent costs

Costs of replacing single components of property, plant and equipment is capitalised when it is considered likely that the benefits associated with the asset will flow to the Company and the costs can be measured reliably. The carrying amount of the replaced component is expensed. All other costs are expensed in the income statement as they incurred.

##### (iii) Depreciation

Depreciation is calculated based on the depreciable amount, which is the cost less estimated residual value. Depreciation is calculated on a straight line basis over the estimated useful lives of each component of property, plant and equipment. Estimated useful lives are specified as follows:

Real estates.....	33 years
Signs and tanks.....	10 - 20 years
Machines, tools, equipment and vehicles.....	5 - 15 years
Furnishings.....	6 - 7 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and changed if appropriate.

#### e. Property, plant and equipment, contd.:

##### (iv) Leased assets

The Company is the lessee in leasing of real estates. The leasing contracts are classified as operating leases and therefore the real estates are not capitalised in the balance sheet. Lease payments are expensed in the income statement as they incur. In case of sale and leaseback where the sales price is higher than the carrying amount and fair value, recognition of gain on sale is deferred and recognised as reduction in lease expense over the lease term. Deferred gain on sale is recognised in the balance sheet among prepaid income.

#### f. Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the first-in first-out rule, and includes expenditure incurred in acquiring the inventories and in bringing them to the location and condition in which they are at the reporting date. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

#### g. Impairment

##### (i) Financial assets

At each reporting date it is assessed whether there is objective evidence of impairment of financial assets which are not measured at fair value. A financial asset is impaired if there is objective evidence that one or more events that occurred after initial recognition indicate that the estimated future cash flows of the asset is lower than previously expected.

The impairment loss on financial assets measured at amortised cost is the difference between, on the one hand, their carrying amount, and on the other hand, the present value of the estimated future cash flows discounted at the original effective interest rate. Individual significant financial assets are tested specifically for impairment. Other financial assets are classified together based on credit risk characteristics and each group is tested specifically for impairment.

Impairment is expensed in the income statement.

An impairment is reversed if the reversal can be related objectively to an event that occurred after the impairment was recognised.

##### (ii) Other assets

The carrying amount of other assets of the Company, except for inventories and tax asset, is reviewed at each reporting date to determine whether there are indications of their impairment. If there is any such indication the recoverable amount of the asset is estimated.

#### h. Contribution to defined contribution pension plans

The Company pays contributions to independent defined contribution pension funds due to its employees. The Company has no responsibility for the funds' obligations. Contributions are expensed in the income statement among salaries and salary related expenses when incurred.

#### i. Provisions

A provision is recognised when the Company has a legal or constructive obligation due to past events if it is likely that payment will be required and if it is possible to estimate the obligation reliably. Provisions are measured by discounting the estimated future cash flows using pre-tax discount rates that reflect current market assessments of the time value of money and the risks specific to individual provisions.

### 3. Significant accounting policies, contd.:

#### j. Revenue

##### (i) Sold goods and services

Revenue from the sale of goods in the course of ordinary activities is measured at the fair value of the payment received or receivable, net of trade discounts and refunds. Revenue is recognised in the income statement when a significant portion of the risks and rewards of ownership are transferred to the buyer, it is probable that the consideration will be collected and the cost of sale and possible return of goods can be estimated reliably. Revenue is in general recognised upon delivery of the goods as the risk and rewards are in general transferred to the buyer when delivery occurs.

##### (ii) Customer points programme

The Company has a customer points programme where customers that have a N1-card accumulate points ("N1-points") when they buy goods from the Company. An N1-point is a valid currency with the Company, i.e. one point equals one Icelandic krona in all transactions with N1 hf. Furthermore, card holders are offered on regular basis the opportunity to multiply the value of their points with offers on certain products.

When a sale of goods includes the accumulation of customer points the consideration is allocated in such a way so that the fair value of the points granted parallel to the sale is recognised as deferred revenue and it is not realised until the customers have utilised the points. When calculating the fair value of granted points, i.e. the part of the revenue from sale which is deferred, it is estimated how big a portion of the points will not be utilised since granted points which are not utilised expire in three years or if no points are used for one year. Obligation due to customer points granted is recognised as prepaid income.

##### (iii) Other operating income

Other operating income comprises commissions, gain on sale of assets, lease income and other income.

##### (iv) Operating lease income

The Company rents part of its premises to other companies under operating lease contracts. Lease income is recognised in the income statement on a straight line basis over the lease term under the line item other operating income.

#### k. Expenses

##### Cost of goods sold

Cost of goods sold consists of the purchase price of sold inventories together with the related transportation cost, excise tax and duties.

##### l. Operating lease expense

Operating lease payments are due to leasing of buildings. They are expensed among other operating expenses as they are incurred, taking into account deferral of gain on sale, when appropriate, see note 3.e.(iv).

#### m. Finance income and finance expenses

Finance income comprises interest income on investments, dividend income and fair value changes of bonds. Interest income is recognised in the income statement as it accrues based on effective interest. Dividend income is recognised in the income statement when the right to receive payment has been established.

Finance expenses comprise interest expenses and borrowing costs on borrowings and recognised according to effective interest rate. Foreign exchange differences are recognised net among finance income or finance expenses, as appropriate.

### 3. Significant accounting policies, contd.:

#### n. Income tax

Income tax expense comprises current and deferred tax. Income tax is recognised in profit or loss except to the extent that it relates to operating items recognised directly in equity or in other comprehensive income, in which case the income tax is recognised together with those items.

Current tax is the income tax estimated to be payable next year in respect of the taxable income for the year, based on the tax rate at the reporting date, besides adjustments to tax payable in respect of previous years, if any.

Deferred tax is recognised using the balance sheet method in respect of temporary differences between, on the one hand, the carrying amounts of assets and liabilities in the financial statements and, on the other hand, their tax bases. The amount of deferred tax is based on the estimated realisation or settlement of the carrying amounts of assets and liabilities using the tax rate in effect at the reporting date.

A deferred tax asset is recognised only to the extent that it is probable that it is possible to utilise future profits against the asset. Deferred tax asset is reviewed at each reporting date and are reduced to the extent that it is considered that it will not be utilised.

#### o. Earnings per share

In the financial statements are presented basic and diluted earnings per share for ordinary shares in the Company. Basic earnings per share is based on the weighted average number of effective shares during the year. No share option contracts have been made with employees nor have financial instruments been issued, such as convertible bonds, which could lead to dilution of earnings per share. Diluted earnings per share is therefore the same as basic earnings per share.

#### p. New standards and interpretations not yet effective

A few new standards and amendments to standards are effective as from 1 January 2014. They did not have a significant effect on the Company's financial statements except that the disclosure of the Company's holdings in associated companies has been increased in accordance with IFRS 12 Disclosure of Interests in Other Entities. A few new standards and amendments to standards have been adopted by the EU and are effective for annual periods beginning after 1 January 2015, with permission to earlier adoption. These standards have not been applied in preparing these financial statements. The adoption of these standards and amendments to standards is not expected to have significant effect on the Company's financial statements.

### 4. Determination of fair values

Shares in other companies and bonds are recognised at fair value. In addition, International Financial Reporting Standards require the disclosure of the fair values of financial assets and financial liabilities even though they are not recognised at fair value. Fair values have been determined for measurement and/or disclosure purposes according to the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes about the respective assets and liabilities.

#### (i) Shares in other companies

For a share in a company quoted in an active market the quoted market price at the reporting date is used. For unlisted shares the fair value is determined by using valuation models which are based on the carrying amount of the share of the companies' equity.

#### (ii) Trade and other receivables

The fair value of trade and other receivables, which is only determined for disclosure purposes, is the estimated future cash flows discounted at the market interest rate at the reporting date. Short-term receivables are however not discounted as the difference between their fair value and their carrying amount is insignificant.

## Notes, contd.:

### 4. Determination of fair values, contd.:

#### (iii) Payable to credit institutions and other financial liabilities

The fair value of payable to credit institutions, which is only determined for disclosure purposes, is the estimated future cash flows discounted at the market interest rate at the reporting date. Interest on payables to credit institutions are market rates. Therefore the difference between their book value and fair value is insignificant each period. Short-term payables are however not discounted as the difference between their fair value and their carrying amount is insignificant.

### 5. Financial assets and financial liabilities

Financial assets and liabilities are classified into certain categories. The classification of financial assets and financial liabilities affects how the respective financial instruments are measured after initial recognition. The classification of financial assets and financial liabilities of the Company and their measurement basis is specified as follows:

- \* Financial assets designated as at fair value through profit or loss are recognised at fair value
- \* Loans and receivables are recognised at amortised cost
- \* Other financial liabilities are recognised at amortised cost

The following table shows the classification of the Company's financial assets and liabilities:

### 6. Financial risk management

#### Overview

The following risks arise from the Company's financial instruments.

- \* Credit risk
- \* Liquidity risk
- \* Market risk (price risk, currency risk and interest rate risk)
- \* Operating risk

Following is information about the above risks, the Company's objectives, policies and processes for measuring and managing the risk. Quantitative disclosures are included throughout the financial statements.

The Company's risk management objective is to minimise the risk it faces by analysing the risk, measure limits and control it.

#### Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company's credit risk arises principally from the Company's trade receivables and other receivables.

Credit risk mainly depends on the age of trade receivables, the financial standing and operations of individual customers and the standing of the industries in which the Company's biggest customers operate, which are transportation, fishing industry and contractors. Approximately 44% (2013: 35%) of the Company's trade receivables at year end is attributable to 30 of the Company's biggest customers. Thereof, receivable from the biggest customer was 4% (2013: 4%).

The Company has established credit rules. All of the Company's customers with charge accounts have credit limits on their account which they cannot exceed. Legal entities must in general provide a self guarantee of the owner for an amount corresponding to supplies for two months. This does however not apply to bigger customers which have a with good credit rating at CreditInfo.

The Company establishes an allowance for estimated impairment on trade receivables and other receivables. The allowance includes both a specific allowance for individual customers and a collective allowance. The estimation of impairment from the collective allowance is based on historical loss experience, the age of receivables and general economic conditions.

#### Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's objective is to always have sufficient liquidity to meet its payment obligations as they become due.

The Company's liquidity position was strong at year end 2014. The Company's management believes that it is in a good position to meet its obligations as they become due. The repayment period of long-term loans is 20 years and loan term is 14 years. In addition to that the Company has access to a credit line for three years, ISK 1 billion and USD 25 million that together amount to ISK 4,2 million in total.

#### Market risk

Market risk consists of price risk, interest rate risk and currency risk. The Company's objective is to manage and confine market risk within defined limits.

#### Price risk

The Company is exposed to significant price risk due to changes in world market oil price, which has fluctuated significantly in the past few years. Significant changes in the world market price are reflected in frequent price changes at the Company's service stations. The Company limits price risk by means of specific agreements with its largest customers.

### 6. Financial risk management, contd.:

#### Currency risk

All of the Company's transactions denominated in foreign currencies create currency risk. In evaluating currency risk both payment risk and settlement risk is taken into account. The objective is to manage currency risk in order to best insure the Company's benefits. The major part of imports is purchase of oil, denominated in USD from foreign suppliers but the sale is in great part in ISK. Sales in ISK constitute 56% (2013: 59%), USD 42% (2013: 40%) and other currencies 2% (2013: 1%).

#### Interest rate risk

The Company is exposed to cash flow interest rate risk due to changes in interest rates of floating rate financial liabilities. As stated before, the Company endeavours to ensure it always has sufficient liquidity to meet its liabilities as they become due. The Company's long-term loan and its line of credit are not indexed to inflation.

#### Other price risk

Other price risk which arises from financial instruments recognised at fair value is not material since the Company's investments in other companies and bonds are not a significant part of the balance sheet or 0.2% at year end 2014 (2013: 1.1%).

#### Operating risk

Operating risk is the risk of direct or indirect loss due to various factors in the Company's operations. Among the risk factors are employees' work, technology and method applied.

In order to reduce operating risk, among other things, there has been established an appropriate segregation of duties, transactions on charge accounts and compliance with law are monitored and training of personnel. A part of operating risk management is the operation of the N1-school, where employees receive appropriate training relating to their work for the Company. Effective work procedures and rules on back-up of IT systems have been implemented. Furthermore, effective operating budgets and monthly statements are prepared for individual divisions and deviations from approved operating budgets are analysed.

### 7. Segment reporting

Internal reporting to the Company's key management is based on both classification of sale by products and sale by divisions, which are corporate division and consumer division. However, a significant part of sale to the corporate division's customers is from the consumer division and therefore the operation of the two divisions is intertwined. Therefore, it is the opinion of the Company's management that despite the division into corporate and consumer division there is only one operating segment within the Company. Notes 8 and 9 specify sale and gross margin by products.

### 31. Financial instruments, contd.:

#### Currency risk

The Company's exposure to foreign exchange risk is specified as follows at year end:

Year 2014	USD	EUR	Other currencies	Total
Bonds.....	0	0	30,372	30,372
Trade receivables.....	835,790	13,092	10,900	859,782
Cash and cash equivalents.....	333,875	857	3,180	337,912

Risk in balance sheet.....	899,699	( 30,309)	( 50,542)	818,848

#### Year 2013

Bonds.....	0	0	31,143	31,143
Trade receivables.....	494,700	19,841	49,173	563,714
Cash and cash equivalents.....	309,672	716	853	311,241
Trade payables.....	( 239,337)	( 61,025)	( 92,444)	( 392,806)
Risk in balance sheet.....	565,035	( 40,468)	( 11,274)	513,292

#### Sensitivity analysis

A 10% strengthening of the ISK against the following currencies at year end would have increased (decreased) the Company's results before income tax by the following amounts.

	2014	2013
USD.....	( 89,970)	( 56,504)
EUR.....	3,031	4,047
Other currencies.....	5,054	1,128
Total.....	( 81,885)	( 51,329)

A 10% weakening of the ISK against the above mentioned currencies at year end would have the same effect in the opposite direction.

#### Interest rate risk

An interest increase at the reporting date by one percentage (100 basis points) would decrease results before income tax by ISK 66 million (2013: 69) due to effects of the Company's borrowings on floating interests. The calculation is based on operating effect on annual basis. A decrease by one percentage would have the same effect in the opposite direction.

### 32. Operating lease

#### Rental obligation

The Company rents premises from various parties and the total obligation in relation thereto amounts to ISK 1,493 million until the year 2020. Future rent payments, without taking into account future inflation, are specified as follows at year end:

### 35. Other issues

In June 2013 the Icelandic Competition Authority announced that it had decided to initiate market research on the Icelandic fuel market. This is a new form of research, which includes consideration of a need for action against conditions or conduct that prevent, restrict or adversely affect competition to the detriment of the public. The study does not focus specifically on the Company itself, but the fuel market as a whole. According to an updated schedule it is expected that by the end of 2014 the gathering of information and assessment of data will be finalized and that an initial report will be published on the first half of 2015. The study did not affect the operations or financial position of N1 hf. in the year 2014.

# Statement of Corporate Governance

## Board of Directors and corporate governance

### The Board of Directors

Corporate governance of N1 is laid down in rules of procedures for the Board, the Company's Articles of Association and the Act on Public Limited Companies No. 2/1995. The current rules of procedures for the Board were approved on a Board meeting at 9 April 2013. The rules are based on provisions in Article 70, paragraph 4 in the Act on Public Limited Companies No. 2/1995 and Article 17, paragraph 2 of the Company's Articles of Association. The Company's Articles of Association describe the Company's objective, its share capital, shareholders meetings, board of directors, CEO, accounting and audit. The current policy on terms of employment for N1 was approved by the Annual General Meeting on 7 May 2013. The policy applies to the terms of employment for members of the Board, CEO and senior management of the Company.
